WHAT IS AN EXPERIENCE?

TRANSFOR

The concept **Experience** is an inspiring and interactive 2.5 - 3.5 hour session from the Energize program line. Leaders and transition experts go through these sprints with a power team over an average period of 4 months.

This intervention fits the first phase of transition in the way pioneers drive transition and it continues in all phases.

This phase is explained in the **Theory of Transformation** that is part of the Experience. This theory gives leaders and professionals concrete tools for transition work in the organization and/or chain. The theory helps to turn inspiration into action It is not obliged to use the theory in your sessions.
